

# Halcyon Services for Sun Ops Center

## Services Brief

### Services Overview

---

Sun Ops Center enables a more efficient, consistent, compliant, and manageable data center through scalable provisioning, intelligent patching and configuration of the physical and virtual enterprise.

As a Sun Principal ISV Partner, Systems Integrator, and member of the Sun Ops Center Specialty Partner Program, Halcyon is pleased to offer a range of pre-packaged deployment services to assist organizations to quickly and easily adopt this enabling technology and achieve visible benefits and return on their datacenter investments today.

Halcyon's Professional Services capability for Ops Center covers all aspects of the solution delivery, including planning, installation, configuration, verification, handover, training, and overarching best practices and methodology.

### Pre-Packaged Deployment Services for Sun Ops Center

---

Halcyon offers the following pre-packaged services for Sun Ops Center, starting at \$5,000:

#### 2 Day Service

- ❖ Installation and configuration of Sun Ops Center.
- ❖ Installation of up to a maximum of 5 Sun Ops Center agents.
- ❖ Demonstrate patching on all agent systems using Ops Center.
- ❖ Basic testing & documentation of the deployment.

#### 5 Day Service

- ❖ Expands on the 2 Day Service above.
- ❖ Installation of up to a maximum of 25 Sun Ops Center agents.
- ❖ Demonstrate patch rollback on all agent systems.
- ❖ Provision and configure a Solaris OS instance.
- ❖ Demonstrate firmware provisioning.
- ❖ Setup and configure OS monitoring.
- ❖ Testing & Documentation of the deployment.

#### 10 Day Service

- ❖ Expands on the 5 Day Service above.
- ❖ Installation of up to a maximum of 150 Sun Ops Center agents.

## Custom Professional Services for Sun Ops Center

---

In addition to pre-packaged deployment services, Halcyon also offers custom professional services for Sun Ops Center, to ensure that businesses realize the maximum benefit from their Ops Center environments. Organizations can leverage Halcyon expertise to:

- ❖ Plan and architect Sun Ops Center deployments in accordance with best practices.
- ❖ Assist with datacenter provisioning automation initiatives.
- ❖ Integrate Sun Ops Center with 3<sup>rd</sup> party Enterprise Management Frameworks
- ❖ Enable in-depth hardware monitoring
- ❖ Provide hands-on training.

Halcyon has over 15 years experience architecting and deploying infrastructure management solutions, and Halcyon's professional services are delivered by consultants who have a deep knowledge of systems management and virtualization technologies.
